

MAINTENANCE

MAINTENANCE

- a) Keep the windows clear and clean in order to keep a good visibility at all times. Wash the windows with a mild soap such as dishwashing soap and a soft cloth.
- b) Check mounting bolts on the frame at frequent intervals for proper tightness to be sure equipment is in safe working condition.
- c) During the winter use a soft brush to sweep off the snow. DO NOT HIT the windows with the brush or your hands to remove the snow. This will crack the vinyl.
- d) Keep air vents clear and clean at all times.

END OF SEASON STORAGE

- a) Thoroughly wash and dry the canvas.
- b) Inspect for any tears or unstitched seams. Repair if necessary.
- c) Carefully remove the canvas from the frame.
- d) Roll up instead of folding the canvas for summer storage.
- e) Store the canvas in a well ventilated place, away from all weather elements and out of reach of rodents.
- f) The frame must be cleaned and dried before storing in a dry enclosed place.
- e) Inspect and replace all defective parts before using again.
